

SELECT AIRE™

**Large Capacity
High Efficiency**

18 to 60 tons cooling capacity

WWW.DESERT-AIRE.COM

Large Capacity

The **SelectAire™** is the optimized solution with our superior dehumidification technology for large pools. It's designed and built for efficient operation with longevity.

With 108 to 337 lbs/hr of moisture removal capacity*, 8,200 to 26,400cfm of supply air flow and 18 to 60 tons of cooling capacity, **SelectAire™** is capable of creating **ideal indoor air quality** in a large pool environment.

*MRC at AHRI 910 conditions 82°F DB, 60%RH entering air.

SELECTAIRE™ SERIES STANDARD FEATURES COMPARISON

			Series		
			Feature	SA	SP
			Double-wall cabinet construction	Option	Yes
			EXV	Yes	Yes
			Ability to be ordered in sections	Yes	Yes
			Remote access and control	Yes	Yes
			Sectioned in multiple pieces	Option	Option
			Heat pump energy recovery	Yes	Yes
			Evaporator coil optimized for latent performance	Yes	Yes

STANDARD FEATURES AND BENEFITS

Superior Build Quality

- Fully-coated coils for maximum corrosion protection
- Corrosion-resistant, insulated wall construction

High Efficiency

- 108 to 337 lbs/hr moisture removal capacity and 18-60 tons cooling capacity
- System designed and tuned for efficient moisture removal using an EXV
- Fully variable airflow
- Backward inclined centrifugal supply fans, EC exhaust fans
- Free pool water heating with reclaimed energy from refrigeration system

Maximum Comfort

- Optimized for moisture removal while maintaining comfort conditions of the space.

Ease Of Service

- Smart, easy-access cabinet design
- Pressure transducers for high and low refrigerant for onboard monitoring of system performance
- Industry-leading AireGuard™ remote monitor and diagnostics

AireGuard™ remote tuning and control:

- Advanced extremely robust remote monitoring and tuning
- Cloud-based and accessible from any computer or portable device
- Monitor hundreds of points within the system and the controlled space
- Real time remote adjustments and system tuning
